Ladies Assaulted by Rocous.—Between 8 and 9 c/lock on Thursday evening last, two respectable married ladies, accompanied by escorts, while proceeding up 16th street to their Romes in East Wheeling, were attacked by several roughs just above, the Capitol building, who attempted to pull them behind the board piles at the corner of 16th and Eoff streets. The ladies made a desperate resistance, and succeeded in escaping from the ruffians, one of them leaving behind a searf which she wore around her neck. Upon being informed of the outrage, the husbands of the frightened women at once went to the board piles, but couldfind no traces of the perpetrators, who were unknown to the ladies. We do not propose to reise that hackneyed cry of "Where's the police?" which seems to be the rule whenever offenders against the public peace escape which seems to be the rubble peace escape offenders against the public peace escape arrest; but it certainly seems remarkable that respectable females cannot venture out after dark without running the risk of being insulted.

THE P. W. & K. has experienced great trouble with that part of the line just north of the Top Mill. It seems to have been the worst spot on the whole road, and has detained the work of track-laying much longer than was anticipated. However the track is now down to the corporation line, and will be to the Top Mill this evening. Our people are beginning to feel interested in the coming of the road. A large number of citizens visited the scene of operations yesterday and realized the fact that Wheeling is about to take in a large slice of territory as a legitimate suburb. Work was also resumed yesterday on the trestle work at both ends of the wharf, and tonight will see the south end about ready for the rails. When the work is finally completed our citizens ought to make the finishing day a memorable one by an enthusiastic reception of the Iron Horse.

Haverly has always brought a good company, but in the present organization he has eclip-sed all former efforts, and gives to the public an entertainment that is not eur-passed by any troupe which has visited Louisville. The company is strong in musical merit and particularly happy, in amusing qualities. There is true wit in the fun of such comedians as Cushman, Rice, Welch, and Carter, who make us laugh without offending the most delicate

FATALLY SCALDED.—A little child of Mr. Charles Kline, who resides on the corner of Market and 7th streets, was so badly scalded on Thursday morning that it died at noon yesterday from its injuries. It seems that a girl who does Mrs. Kline's housework had filled a bucket with hot water, with which to do some scrubbing, and turning to put more water on the stove, did not notice the child approaching the bucket. While the girl was thus engaged the child fell into the water and was frightfully scalded. The child was only about two years old.

JUSTICE BULGER.—Mrs. Bridget Rider yesterday complained before this Justice that on the 10th inst. Jno. McGannon came to her house on McColloch street and used abusive and threatening language toward her. It eeems that McGannon owns the house occupied by Mrs. Rider, and as she got a little behind with her rent he called upon her and, as she alleges, threatened to tear down the house over her head if she did not leave, besides abusing her roundly. A warrant was abusing her roundly. A warrant was issued for McGannon.

"THR LAY OF THE COW."—In our report of the Waverly banquet last Wednesday, night reference was made to the "railway song" of one of the members of the Society. Below the city as far as we can learn the river is clear of ice.

The tow boat Harrison came up from Kate's Bock yesterday evening.

About one o'clock the ice opposite Martin's Ferry moved down about a quarter of a mile to the head of the Island, where it gorged, and the gorge did not brake loose until about half past seven o'clock last evening, when all holts let go and the ice struck southward.

John A. Armstrong went up yesterday to Liverpool to look after the tow boat Monitor, which is lying at that point.

STOCKS—In the early dealings on the Stock Exchange the feature of speculation was in coal stocks, which rose lad per-cent for the two Delawares on rumors about a combination. In the general list Hannibal & St. Joe was weak and fell ½ for common and 1½ for preferred, while the Trunk lines and Granger stocks were about steady. During the afternoon the market was somewhat feverish and unsettled on the supension of John F. Henry, Curran & Co., the sileged defalcation of H. M. Cutler, cotton broker, and rumors afloat in regard to various firms, which could not be traced to any authentic source. Included in this class was a rumor, subsequently found to be untrue and evidently started for speculative purpose, that Jay Gould had withdrawn his special capital from the firm of William Belden & Co. Towards the close prices in their grant the Granger shares being the most active. Coal shares were somewhat irregular, but in the main higher. Notwithstanding the financial mishapp which from time to time appear to disturb the current of speculation the market seems well sustained, with the usual productions of higher prices in the near future, which the bulls are basing upon the increased railroad earnings in prospective. The earnings of the Hannibal & St. Joe Ballroad Co. for 1877 show an increase over the previous year of \$139,000.
